Affordable Fulwin 2

The Fulwin 2 only costs approximately BND 15,000

Press release from T.C.Y Motors on Fulwin 2: It seems that Chinese manufacturers slowly are approaching design more elaborate products from other regions. Though slowly, the evolution is clear with each new release, and as proof of this is the renewed Chery Fulwin2, hatchback and sedan.

As a new fine model under Chery, Fulwin 2 is highlighted by its exterior. Designed by a distinguished Italian designer, following the concept of bionic design, the exterior is vigorous, fashionable and sporty. The V-shaped front face produces a strong visual impact. The headlamp and grills are connected naturally, making the car energetic, dynamic and sporty.

Regarding the power, Fulwin 2 carries outstanding ACTECO 1.5L engine, one of China's ten

best engines, with maximum power of 80kW horsepower and a maximum torque of 140Nm/3000rpm. With features of low speed and high torque, the engine perfectly combines its advantages in fuel economy and dynamism, making ride comfortable with little fuel consumed.

As for space, Fulwin 2 has a 2,527mm super long wheelbase. The distinctive hatchback design and collapsible rear seat design create a flexible interior space to meet diverse needs for satisfy family life like traveling, shopping and work.

Recently, “2012 best Chinese Auto Model”, organized by Bolido, an authorative auto magazine in Chile, has been unveiled. As a result, Chery Fulwin 2 outperformed a host of strong rivals to be honored as the most popular Chinese model among Chilean consumers in 2012 with an overwhelming majority of votes. Chery made a series of localized improvements to Fulwin 2 to ensure high quality, performance and adaptability.

Thanks to Chery’s unremitting pursuit of product quality, Fulwin 2 was acknowledged by local distributors and potential consumers upon launch. Consumers considered Fulwin 2’s exterior attractive and interior characteristic. Local distributor representatives said Fulwin 2 was fashionable, spacious, reliable and powerful despite small size, believing the fine car will sell well in.

Imported and distributed by T.C.Y. Motors, we present to you the new manual transmission, 1.5-litre gasoline engines, Chery Fulwin 2 hatchback and sedan. The car also features ABS, EBD, driver and front passenger airbags, front and rear fog lights, remote door opening, central locking, power windows, power side mirrors, CD player, USB port, remote boot cover and etc. It will be officially launched on Friday, 11th January 2013 at Kiarong Sentral Showroom.

So far the unit comes in manual only
